

Chapter 4. A little More Complex – Adding Cocktails

You may want to “upscale” your selection of beverages, especially for brunches, smaller events or if your group will be staying here on the ranch.

For convenience, we sell single serve pre-mixed cocktails, single shot bottles of selected spirits, and a limited variety of mixers. We do not stock fruit, olives, onions, celery or other food items but can arrange for special orders. Don't hesitate to tell us what you might like!

We prefer to sell all spirits in single serving sizes. We have found that when drinking single servings, people are more mindful and alert to how much alcohol they are consuming. This awareness does not detract from the “pleasure of the party” while preventing some of the alcohol induced dramas, motor vehicle accidents and DUI/DWI arrests.
